VICTORIA, Dec. 3—Condition of
for Marconi, 24-year-old hunter
hospital here with a broken neck
fractured skull, was "just about
stable," according to hospital
nurses today.

WHEAT KING'S WIFE SHARES HIS HONORS

REICH CHIEF NO MORE SPENDING MONEY AT RAPID RATE

WOODSWORTH TO DEFENCE OF DR. RIDDELL

WINNIPEG, Dec. 3.—Doubt that Canada's permanent representative at Geneva would have exceeded his authority when he suggested that justice against Italy should be extended was expressed Monday by S. S. Woodsworth, leader of the Co-operative Commonwealth Federation.

Commenting on the announcement by acting prime minister Ernest Lapointe that Dr. Walter A. Riddell only expressed his own views when he advocated an embargo on oil, coal, iron and steel, Mr. Woodsworth said it was "very strange" that Dr. Riddell's statements should be disavowed by the Dominion government.

It looked as though strong pressure must have been brought to bear on Ottawa, Mr. Woodsworth said. He could hardly conceive that Dr. Riddell would make such important statements before the League of Nations committee of 15 without previous consultation with Ottawa.

Mr. Woodsworth's own view was that if sanctions were to be applied at all, they should be as complete as possible.

RICH CHINESE WILL DONATE 1,000 SCHOOLS

POOCHOW, China, Dec. 3.—A Chinese great philanthropist, Mr. Aw Broomhew, who makes his home in Singapore, has returned to his native province of Fukien for a visit with the announcement that he will donate \$300,000 (Mex. approximately \$400,000 Canadian) for the founding of 1,000 new primary schools.

The schools will be founded at the rate of 100 a year for the next 10 years.

A multi-millionaire who made his fortune from a string of Chinese medicine shops, rubber plantations and Singapore real estate, Mr. Aw Broomhew recently donated \$20,000 (Mex. \$30,000 Canadian) to establish a public recreation ground and swimming pool in Poochow.

HOPHE LEADER FOR AUTONOMY HAS TO FLEE

SHANGHAI, Dec. 3.—Reports reaching here today said Yeh A. Keng, who set up an autonomous state in East Hopho province nine days ago, had been forced to flee his home in disguise when he was surrounded by clamorous Chinese demanding tax relief.

North China tension eased with Hopho leaders conferring at Peking to seek a satisfactory formula for political reunification, an authoritative source said the central Chinese government had decided to give North China virtual autonomy to forestall Japanese encroachment.

BRANDS KING TUT CURSE PURE FAKE

Egyptology Expert Denies Pharaoh's Malediction Upon Walls

CHICAGO, Dec. 3.—The "King Tut Curse" that was supposed to shadow the lives of the men who "evilsided" Tutankhamen's tomb in the Valley of the Nile, was branded a fake Monday by William E. Egerton, an expert in Egyptology at the University of Chicago's Oriental Institute.

Tradition held it that discoverers of the mummy of the Egyptian Pharaoh found their words carved on the tomb walls—

"Death shall come on swift wings to him that toucheth the tomb of Tutankhamen."

The "inscription" was branded a "pure fabrication" by Egerton in commenting here on Monday, that Prof. James Breasted, who did not see the tomb, was not a victim of the "curse."

There is not and was not any such inscription in or near the tomb, Egerton asserted.

Belief in the malediction is "absurd," Egerton said, but even if it were true, it would be ineffective because "Amen" which was actually bled into the ancient burial place is still alive and well.

"That man was Mr. Howard Carter, who directed the opening of the tomb on Nov. 4, 1922, with his own hands and placed the second door (the one which gave entrance to the tomb itself) on Nov. 26, 1922, again with his own hands," he said.

NANKING WILL BEAT JAPANESE ON AUTONOMY

SHANGHAI, Dec. 3.—The Chinese National Government has decided to give North China virtual autonomy in a move to prevent French domination in that area, by Juan an authoritative source said last night.

Administration of the northern provinces will be gradually changed, it was said, and will grant wider governmental powers and thereby extend the operation of the new monetary measures in the Japanese-occupied area.

France still will outnumber the German air force, but half of France's planes are unfit for actual combat.

UNDERGROUND HANGARS ARE FLED INVENTION

France's underground hangers are a system of underground hangars. There are a number of underground hangars, some of which are for planes and parts, but most are for the hangars of the German navy. Great underground reserves are stored against the day when the borders may be sealed. Most of the German navy's reserves are stored against the day when the borders may be sealed. Most of the German navy's reserves are stored against the day when the borders may be sealed.

FRANCE'S PLANE STRENGTH

At present, Germany is swiftly building twenty-four divisions consisting of a peace-time army eventually reaching thirty-six divisions of 15,000 men each.

EQUIPPING ARMY IS CHIEF PURPOSE

The whole country and districts are being used for the army. Hitler and the general staff command industry, trade, agriculture and every phase of national life. Instead of being a peacetime army, the army gets copper, rubber and oil.

At least twelve months will be required to train and equip the army of the peace time. By training 400,000 recruits annually the army of 1,500,000 men will be built in five years if there is an internal breakdown. Approximately the same time is required to equip the reserve divisions.

The biggest surprise in the new army is its artillery. Instead of the old three-inch artillery of the World War, all artillery regiments are armed with four-inch anti-aircraft howitzers having superior striking power together with the added value that they can be fired almost any position.

The new German army is ahead likewise in its mechanization and motorization. Three fully motorized divisions are in the building and a number of battalions of swift, small tanks have been completed.

Passion Play Mary Now U.S. Visitor

Three Typhoid Bunnies May Scatter Death

ALBUQUERQUE, N. M., Dec. 3.—Three of three rabbits, inoculated with typhoid germs, from the University of New Mexico biology department, was reported today by Dr. Fred W. Allen, Dr. Allan said unless the rabbits were very well cooked, anyone partaking of this meat would contract typhoid fever.

Economic authorities at Rome claim they can get 30 per cent of Italy's oil requirements from countries refusing to join with the sanctions. From 20 to 25 per cent more can be obtained from Albania, they say. And reserves could be created, it is asserted, by mixture with alcohol or transformation of petroleum into bread.

Italy also claim there is enough oil stored in Eritrea already to enable it there's legions to push war operations at full speed for another six months at least.

Reading Confers Many Degrees

READING, England, Dec. 3.—Sir Austin Chamberlain, former foreign secretary, was inducted formally as vice-chancellor of the University of Reading Monday.

Honorary degrees were conferred upon Sir Frederick Hopkins, professor of biochemistry at Cambridge University; Lord Haldane, Lord Chancellor of England; and Edmund Verrier, former premier of France.

MAYOR CODE IS RETURNED IN RED DEER

RED DEER, Dec. 3.—W. P. Code was returned by acclamation as Mayor of Red Deer for 1936 at civic communion here on Monday, and will start his fourth term.

Elections will be held for the public school board and the city council. For the council four candidates were nominated to fill three vacancies. George G. J. Teasdale, and J. V. Peterson, retiring councilmen, that are by J. W. Johnston is a new man in the running. On the school board there are three positions to be filled with four candidates in the field.

Retiring trustees Dr. J. L. McCullough and Dr. J. R. Long were nominated while R. S. Gilligan, whose term expires this year, did not stand. Dr. R. M. Parsons and A. J. Little are the other two candidates. One vacancy on the municipal hospital board was filled by the return of E. G. Johns by acclamation while F. M. Macdonald, J. E. Carver were returned by acclamation to the separate school board.

FOOD SUPPLY NOT MENACED BY SANCTIONS

ROME, Dec. 3.—Italy will have enough food from its own resources to feed its people indefinitely in the struggle against sanctions, the special food commission headed by Achille Starace, secretary of the Fascist party, announced Monday.

The committee includes agriculture, deputies and medical authorities. It will publish booklets containing practical advice relative to hoarding of food, and planning of economical needs.

BEIGIAN KING PLEADS PEACE

LONDON, Dec. 3.—King Leopold of the Belgians unofficially was reported to have urged a speedy settlement of the Italo-Rhodian conflict when he was a luncheon guest of the King and Queen at Buckingham palace Monday.

The Belgian ruler was said to have based his plea on the close family ties uniting Belgium and Italy.

Following the luncheon King George made the Belgian king a Knight of the Garter.

Seeks Treasure: Tunnel Cave-In

BARTS SIX

LOS ANGELES, Dec. 3.—A 48-year-old gold-chaser, was rescued last night from under tons of rock which held him captive for more than 18 hours, after a legendary Spanish treasure hunter was saved in on him.

OIL STOPPAGE NOT SERIOUS TO DUCE WAR

Plane Instructor Finds Lost Pilot Baffled Over City

LONDON, Oct. 3.—Capt. Tom Williams, pilot instructor of the London Flying club, heard a plane diving among the dense cloud banks over London Saturday night. Fearing it was a ship in distress, he took one of the club flyers and went aloft. However, when the city like a baffled bird, was able to find a landing place, was a huge twin-motored monoplane owned by Abrams Acker, Harveys, Lansing, Mich. Williams circled about them and studied them to a safe landing at London airport.

ITALY EXPECTS NAVAL PARLEY TO END WOES

ROME, Dec. 3.—Italy last night looked forward to the forthcoming naval conference when it was hoped, will put an end to the senseless campaign imposed by nations against this country.

As the days pass sanctions are looked upon with gloom. The Italian attitude has become steadfast. The general view is that by reaching an agreement on the Mediterranean situation during the naval conference, it will be possible to release Great Britain and thereby speed a solution to the Ethiopian problem.

Life Change Fatal

LONDON, Dec. 3.—Fitting an iron ring in a new life, William Fitzpatrick, 35, was fatally injured when the 30-foot out of his hands, striking him in the face.

YOU Share in Canada's Greatest Co-operative Business

Life Insurance

LIFE insurance is the greatest co-operative business in Canada. As a policyholder, YOU are associated with more than 3,500,000 other Canadians in this great enterprise.

Every business day last year Life Insurance Companies in Canada distributed, to Canadian policyholders and beneficiaries, over Half a Million Dollars.

Life Insurance enables YOU to provide real financial security for yourself and family. It also benefits the country as a whole through the investment of Life Insurance funds in important public enterprises.

Life Insurance dollars give employment to workers throughout the Dominion. Transportation facilities are extended, highways built, streets paved, schools erected, water, sewage and other necessary works constructed. Life Insurance dollars help to finance the farmer, and bring business to the general store and country merchant.

In the past five years of business depression, Canadian policyholders and beneficiaries received Eight Hundred Million Dollars in payments from their Life Insurance funds. Life Insurance companies have fulfilled every obligation one hundred cents on the dollar.

As a policyholder, YOU can take justifiable pride in sharing in this, the greatest co-operative business in Canada.

TUESDAY, DECEMBER 3

THEY LIKE TO VOTE

New Zealanders must be found of elections.
The new Government there will reduce the
legislative term from four years to three, which
it had to be.

There is no accounting for tastes, and
"everyone to his liking." In Canada elections are
counted as necessary nuisances, and one in
four years they are held. The success of
disasters in the federal and provincial fields
have shown that a Government which clings to
power for five years thereby endangers the
country. Any Government which reduced the legal term
to three years would likely share the same fate.

MORE MILLIONS FOR WAR

Of Japan's total expenditure next year, 6.3
per cent is to go to maintain and increase its
army and navy.

Whatever may be in the minds or imaginations
of the statesmen at Tokyo, it does not seem
probable they are planning to spend all that
money just to smash up the decrepit old Chinese
Empire, which is falling to pieces of its own
weight, but at least Japan can arrange the political
future of the fragments.

The budget at Moscow will show what Mr.
Stalin thinks about the aims and anticipations
of the Japanese ministers.

ALBERTA STILL LEADS

Another Alberta "what king?"
The first 30 prizes awarded for hard red
spring wheat at the Chicago International went
to Canadian exhibitors, who took 33 out of the
44 awards for this type of grain. Out of a total
of 67 prizes for wheat, Canadians won 56.

While British Columbia and Ontario figure
among the winners in other varieties, Alberta
seems to have captured the lion's share of the
prizes for the hard red spring wheat. Southern Alberta
farmers have done better than those in the
northern districts this year, a distinction which
will not be grudged, remembering the frequency
with which farmers in the central and northern
areas have annulled the world championship in
years gone by. An August frost, it has to be
admitted, is no help to the production of prize-
winning wheat.

In coarse field grains, Canadians also secured
heavily, a fair share of the awards coming to
Alberta competitors.

Following the awards at Toronto, this particu-
lar list of the victors is hardly surprising
evidence that this province is still holding its
own as a producer of high grade grains of all
kinds, and that more and more Alberta farmers
are aiming at quality in their production. It
appears likely there would have been a remarkable
array of ribbons and silverware from the Windy City to this province when the
fair ends.

CANADA'S POSITION

Hon. Ernest Lapointe has issued a statement
to correct any impression that Canada is heading
a drive to broaden and intensify the
"sanctions" pressure upon Italy.

Canada's representative at Geneva suggested
that oil, coal, iron and steel be added to the
list of embargoed products, but did so as a
personal contribution to the discussion, not as
an attempt on the part of the Dominion to carry
"sanctions" further than the other member-
nations wanted to go.

This is Europe's "now," not Canada's. It is
for European countries to say what commodities
are to be placed under embargo. Canada is
bound as a member of the League, and also by
the direct statement of Premier King, to adhere
to whatever economic and financial sanctions
the League agrees upon.

Canada is not bound by anything the former
or the present Government has done to accept
responsibility for any extension—or shortening—of
the list of commodities to which sanctions
are to be applied. Nor, by the way, has the
Dominion been committed by the former or the
present Government to engage in military opera-
tions to enforce economic and financial
sanctions.

This would seem to be a good time to make
such arrangements that Canada's representative
at Geneva will be in a position to say what he has
instructions to say, and no more.

AS TO DIVIDENDS

Gratitude has been defined as a lively hope
of favors to come. In this connection many
people have been expressing their gratitude to
the Provincial Government. Through the news-
papers and perhaps in the future in person, they
forcefully through private communication.

There have been petitions for the early issue
of Social Credit dividends. Both the Premier and
Hon. E. C. Manning took occasion over the week-end to counsel
patience on the part of the expectant ones. At
Claremont the Premier said his problem at present
was not how or when to issue the dividends, but
to get the provincial debt refunded and ex-
penditure down to the level of income. That
done, Major Douglas would be brought over to
plan a dividend scheme.

The existing debt, it is to be inferred, cannot
be paid by issuing dividends; and while the
budget is out of balance dividends are out of
the question. The Premier was emphatic that
he had not abandoned the idea of ultimately
issuing the dividends, and repeated his promise
to "see it through" if Ottawa will underwrite
the present liabilities and cut down the interest
rates.

Mr. Manning at Edmonton explained that a
satisfactory form has not yet been devised for
registering the residents of the province for
dividend-paying purposes. Several drafts have
been made and another is under way. It would
be at least eight months before any dividends
could be issued, which postpones the first
delivery to mid-summer of 1937, at the
earliest.

Twenty Years Ago

From the Files of The Edmonton Bulletin
Telegraphic items from Winnipeg:

Jackman, Ont. secretary, who escaped lately
from the lunatic asylum at Selkirk, has been
lecturing at Crookston on the rebellion.

King Milan of Serbia sent a message under
a flag of truce to the Bulgarian advance line
proposing peace, at the request of the powers.
Premier Alexander of Bulgaria declined the
proposition on the ground that the king had
not received such a request. The Serbians
have evacuated the Widin district and the
question of war indemnity payable to Bulgaria
is fixed.

Battled: The firing of shots at Fort Oter
this morning at two o'clock caused some excite-
ment among the residents of the province for
fear of a rebellion.

Battled: Eight Indians were hanged here
this morning six for the Frog Lake and two
for the Battled murders. Everything went
smoothly for five years. The Indians had not
received such a request. The Serbians
have evacuated the Widin district and the
question of war indemnity payable to Bulgaria
is fixed.

Forty Years Ago

The Prince Rupert Times states that Sup-
Moffat held an investigation into the case of
the escape from Duck Lake of the Indian who
shot Sgt. Colebrook and decided that the
blame lay on Constable Dickson and sentenced
him to two months' imprisonment. It continues:
"Commissioner Herchmer, however, took
two different views on the matter and imposed
two charges against Sgt. Henan, who was in
charge of police detachment there, and he
was sentenced to six months' imprisonment."

Investigation, found Sgt. Henan guilty and
reduced him to the ranks.

St. Andrew's Day, Saturday, Nov. 26th, was
celebrated in Edmonton by the Scotchmen of
the town and district with a dinner at the
Queen Hotel.

Thirty Years Ago

Give nominations: For mayor, A. T. Cushing,
Charles May, for aldermen, Robert May,
Samuel Smith, for councilors, George
Sandison, W. A. Greishach, J. H. Picard, D. R.
Fraser, J. H. Calhoun, A. York, W. H. Clark,
London, and Dr. A. J. McFarlane.

Sheppard, Dr. McFarlane, for councilors, George
Thompson, B. McKernan, H. Crawford, F.
Baker, W. J. McKernan, J. McKernan, G. H.
Elliot, Dr. Collier.

Nominations for trustees: Edmonton Protec-
tive Association District, Alex Taylor, Alec
May.

St. Joachim's Separate School District, P. E.
Leard, Joseph Sheuster.

For trustees of the Roman Catholic Public School
District, J. Shields, A. MacLean, F. Buhrer, Dr.
Green.

For trustees of the Roman Catholic Public School
District, J. F. Parn, Z. Moreau, H. Picard, J. C. Connolly.

Twenty Years Ago

The Hottel and Soldiers' Bureau, Edmonton
branch, at their meeting in the Y.M.C.A. last
night, completed a systematic scheme of or-
ganization, so as to welcome returned soldiers
on their arrival in the city; to care for the con-
valescent; to find employment; to educate and
prepare returned men for other employment.

For the purpose of establishing a club room, and to arrange a
series of get-together receptions.

The recruiting campaign is coming to an
end and by Dec. 11 we shall know whether
the men of the United States Army, aged
19 to 40 are prepared to give the army the
forces it requires.

It is reported from Florida, Greece,
and the Balkans have sent a number of bat-
talions to occupy the village of Buc, two hours
from the Greek frontier, in order to thwart
the Bulgarian manoeuvre having for its pur-
pose the occupation of the railway station of
Kaxali and cutting off the Serbian retreat
toward the Greek frontier.

Washington: The state department an-
nounced formally that it had asked for the
recall of Captain Alexander Haysling from
Pagan, navy and military attaches respectively
to the German embassy because their "objec-
tionable attitude in connection with naval and
military matters."

Ten Years Ago

New York: Warrants are out for 25 men
said to be implicated in a \$25,000,000 bootleg
ring.

The McInnes Fish Company will develop the
resources of the Columbia River.

Ottawa: Cattle exports to Britain are well
over the 100,000 mark and there is prospect of
the year ending with a total of \$20 to \$15 per
head.

The Passing Show

By J. S. COUPER

Do you ever see a scene, or read something
in a book for the first time, and wonder where
it was you saw or read something like that
before?

I'm reading Philip Goodall's "Wellington."
Came across a passage and wondered where I
had recently read something similar.

It was something under Bonaparte's name, and I remembered
Wellington—then Sir Arthur Wellesley—to his friend Mr. Cro-
wer, on the evening he received his commission
from the king to command a force to be "employed on a parti-
cular service."

The particular service was to land a small
army in Spain against the French, and Napoleon
was the Peninsular.

Napoleon was at the height of his fame. He
had conquered Europe, and he was now brother
of the throne of Holland, and on the throne
of Spain and that year created twenty-four
Dukes. His marshals and his armies were all
over Europe. Wellington was relatively un-
known. His successes in India were regarded
as no test of skill against European generals.

He was silent over dinner, and he was silent
him what he was thinking about. Said
Wellesley:

"I am thinking of the French that I am
going to fight. I have not seen them since
the campaign in Flanders, when they were
capital soldiers, and a dozen years of victory
under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I
will fight them, and I will not be defeated."

He was silent over dinner, and he was silent
him what he was thinking about. Said
Wellesley:

"I am thinking of the French that I am
going to fight. I have not seen them since
the campaign in Flanders, when they were
capital soldiers, and a dozen years of victory
under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I
will fight them, and I will not be defeated."

He was silent over dinner, and he was silent
him what he was thinking about. Said
Wellesley:

"I am thinking of the French that I am
going to fight. I have not seen them since
the campaign in Flanders, when they were
capital soldiers, and a dozen years of victory
under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I
will fight them, and I will not be defeated."

He was silent over dinner, and he was silent
him what he was thinking about. Said
Wellesley:

"I am thinking of the French that I am
going to fight. I have not seen them since
the campaign in Flanders, when they were
capital soldiers, and a dozen years of victory
under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I
will fight them, and I will not be defeated."

He was silent over dinner, and he was silent
him what he was thinking about. Said

under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I
will fight them, and I will not be defeated."

He was silent over dinner, and he was silent
him what he was thinking about. Said
Wellesley:

"I am thinking of the French that I am
going to fight. I have not seen them since
the campaign in Flanders, when they were
capital soldiers, and a dozen years of victory
under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I
will fight them, and I will not be defeated."

He was silent over dinner, and he was silent
him what he was thinking about. Said
Wellesley:

"I am thinking of the French that I am
going to fight. I have not seen them since
the campaign in Flanders, when they were
capital soldiers, and a dozen years of victory
under Bonaparte had made them better soldiers
than I. To me, to make one more
thoughtful, but no matter; my die is cast; I

X-Rays

By DOCTOR FRANK MCCOY

All of you will remember the seven wonders
of the world which you studied in ancient
history—making up a list of the seven won-
ders of the world today, X-rays are included
as one of the seven most wonderful things that
we have. X-rays were discovered in 1895 by
Professor Roentgen, a professor of physics in
Wurzburg, Bavaria. Professor Roentgen
was experimenting with a Crookes tube when
he noticed that although the discharge tube was
covered with black paper, which of course cut
off all visible light from the tube, nevertheless,
a nearby screen became fluorescent, that is, the
screen emitted light rays. Roentgen
named these electromagnetic pulsations or
waves, X-rays.

One of the striking properties of the newly
discovered X-rays was their power to penetrate
materials not penetrable by ordinary light
waves. Whereas, the ordinary light was stopped,
the X-rays would shoot right on through. As
an illustration, suppose you stand in front of an
opaque wall. The light waves would be stopped
at the wall. It is opaque to it. But you can stand
in front of X-rays and there rays will penetrate
your body very easily.

Before the discovery of these rays, the only
way that it was possible to see inside the body
was to first cut away the skin and muscle cov-
ering; without cutting away these portions,
it was impossible to see the deeper tissues.
With the discovery of X-rays, it became pos-
sible to see the deeper tissues without cutting
and without inconveniencing the patient.

These doctors who use these rays for the pur-
pose of diagnosing disease, have found that in
time in history, had a way of studying the
inside of the body.

The flesh of the human body is much more
transparent to X-rays than are the bones. Be-
cause the bones are less transparent, it becomes
possible to see them. Examination of the bones
is certainly an important part of the study of
the body. With X-rays, studies are made of
bones affected by fracture, arthritis, and
other diseases, and it is possible to study the
teeth and to determine whether abscesses
exist about the teeth. In dentistry, this de-
pends the value of X-rays in dentistry.

In addition to the power of X-rays to pass
through materials which ordinary light waves
do not pass through, X-rays will pass through
opaque property—they will cause certain sub-
stances to become fluorescent. You can use
them to make a screen become fluorescent. It
is, to make it emit visible light. If you provide
a certain type of screen and then place an
object in between the screen and the source
of the X-rays, the object will appear on the
lighter surface of the screen. From this
side we have the fluoroscope and the fluoroscopic
tube, one of the most valuable of all diagnostic
measures.

Suppose you drink some milk in which there
is mixed a certain amount of barium—the
barium will be opaque to X-rays and with this
opaque milk in your stomach you can step in
front of the fluoroscope and I can see your
stomach plainly. The barium meal will
make your stomach throw a shadow on the
screen and by studying that shadow, I know
your stomach is in a normal position, or if
it has fallen. If it has fallen, you have pro-
lapsus of the stomach. The fluoroscope will
yield a great deal of valuable information
about how your stomach is doing in the
body.

As the opaque meal passes downward, it will
reach the large intestine, which will throw a
shadow on the screen and I can see your
therefore study the large intestine in the same
way as the stomach was studied.

TOMORROW'S ARTICLE MORE
ABOUT X-RAYS.

QUESTIONS AND ANSWERS

QUESTION: Mrs. J. S. W. writes: "Please ad-
vise me about crooked teeth, both upper and
lower, in a boy of eleven."

ANSWER: Crooked teeth would be cor-
rected by the use of braces and appliances on
the teeth. An orthodontist can usually correct
this trouble in a child, whereas if the
crooked teeth are allowed to remain without
being straightened they may eventually re-
sult in a malformation of the jaws, giving a
peculiar expression to the mouth.

Dr. Frank McCoy's Great Book, "The Fast Way
to Health," is a book on the science of health in plain
English. It is a book that every man and woman
should read. It is a book that will save you
many dollars in doctor's bills. It is a book that
will give you the secret of health. It is a book
that will give you the secret of youth. It is a
book that will give you the secret of long life.
It is a book that will give you the secret of
happiness. It is a book that will give you the
secret of success. It is a book that will give
you the secret of everything. It is a book that
will give you the secret of life. It is a book
that will give you the secret of death. It is a
book that will give you the secret of everything.
It is a book that will give you the secret of
life. It is a book that will give you the secret
of death. It is a book that will give you the
secret of everything. It is a book that will give
you the secret of life. It is a book that will
give you the secret of death. It is a book that
will give you the secret of everything. It is a
book that will give you the secret of life. It
is a book that will give you the secret of death.
It is a book that will give you the secret of
everything. It is a book that will give you the
secret of life. It is a book that will give you
the secret of death. It is a book that will give
you the secret of everything. It is a book that
will give you the secret of life. It is a book
that will give you the secret of death. It is a
book that will give you the secret of every-
thing. It is a book that will give you the secret
of life. It is a book that will give you the secret
of death. It is a book that will give you the
secret of everything. It is a book that will give
you the secret of life. It is a book that will
give you the secret of death. It is a book that
will give you the secret of everything. It is a
book that will give you the secret of life. It
is a book that will give you the secret of death.
It is a book that will give you the secret of
everything. It is a book that will give you the
secret of life. It is a book that will give you
the secret of death. It is a book that will give
you the secret of everything. It is a book that
will give you the secret of life. It is a book
that will give you the secret of death. It is a
book that will give you the secret of every-
thing. It is a book that will give you the secret
of life. It is a book that will give you the secret
of death. It is a book that will give you the
secret of everything. It is a book that will give

THIS CURIOUS WORLD

—By William Ferguson

OF course, the stars do not actually rise and set, but the earth's outward rotation on its axis causes the celestial scenery to circle overhead. Each night a star rises nearly four minutes earlier than on the night previous. One year from tonight we will see each star in exactly the same position that we see it tonight.

NEXT: On what side does tree bark grow?

LEAF, BLACKHAWK, REDS CLOSE SCORING RACE

A Hot Spot for Veteran Goalie in Bruising Game

Goalie Andy Kerr of the Amerks Goes Down in Battle With Detroit.

LEAF FANS by BILL LEWIS

WITH no worry of weather hazards, Dominions and Superiors start their winter hockey season tonight, in the game that is to open the season in the local rivalry between the two clubs. The teams were forced to call off hostilities last Saturday when wild temperatures made ice conditions unsuitable, but this evening there will be no worries of that sort and the clubs can depend upon a real sheet of ice upon which to show their stuff. There is more local rivalry between the Edmonton team of the inter-city senior league this season than has been noted in the last half-dozen years and the respective followers of the two clubs should have plenty of entertainment before the schedule is completed.

Incidentally, with only two senior squads here this season, the bulk of winter hockey ranks with the best in the West. A flock of former juniors have been brought up into the company and thus there should be plenty of new blood to keep up the interest at all times.

FISHED with their exhibition series that annually opens their winter schedule, the hockeyists went into regular season on Wednesday night. From the present outlook there is likely to be a great race in the junior circuit this winter before a winner is decided. The inclusion of a number of young players on all teams may not mean championship contenders out of the clubs for this year, at any rate, but it should serve to provide the most interesting kind of hockey possible and produce teams capable of going places in the next year or two.

Eskimos are due to return from the Coast tomorrow, and play their next home game Monday. The club performs against Calgary later before visiting the coast again, against any of the Coast teams.

WINNIPEG served notice on the East that they will be bad opponents for Hamilton tonight in the Canadian football final. Saturday when they whipped Assiniboia College of Windsor yesterday by a 17-0 score. Actually that game doesn't mean very much, as Assiniboia College does not rate very high in the football circuit, but it does show that Winnipeg haven't lost their strength during the long lay-off they have had since the Western Canada final against Regina Roughriders.

No matter how much we would like to see Winnipeg whip Hamilton, it is hard to believe that they will do so, as Tigers are particularly hot right now and will be at top form for the big game Saturday. However, they'll have a lot of Westerners cheering for them to bring the first eastern championship to the prairies.

The snub means is 750 times as great as that of all the solar planets and their satellites together.

Conacher Tops All Marksmen

Paul Thompson Is Close Second Star, Having Ten Points—Harvey Jackson Steadily Rising.

MONTREAL, Dec. 3.—While the fight for individual honors in the National Hockey League scoring race entered around the first lines of Toronto Maple Leafs and Chicago Black Hawks, the second weekly statistics issued last night by President Frank Calder showed the Canadian division of the league was outscoring the United States section by almost two to one. Big Charlie Conacher, leading scorer of the last two seasons, was back on top of the whole league with six goals, five assists, 11 points. The Toronto right winger had one more point than Paul Thompson, Chicago, left winger who has 6-4-10. A rookie, Red Meek of the Chicago Black Hawks, had one goal, two assists, four points.

The Canadian division skaters have scored 73 goals in their games to date against 59 in the United States division. Conacher, the crack Thompson-McGowan-Romney line of Chicago led the United States division with 10-8-18 points respectively. Harvey Jackson, left wing star, followed Conacher at the top of the Canadian division with five goals, four assists, and Bill Thomas, right wing, next to give Leafs the top four places.

Red Horner, 40 minutes with the line, was quickly headed the penalty parade. Marty Burke, Chicago, and Roger Jenkins, Boston, each had two for second place.

Official Standings

Team	W	L	T	P	Pts

EDMONTON BULLETIN SPORTS

PAGE FOURTEEN EDMONTON, ALBERTA—TUESDAY, DECEMBER 3, 1935 PAGE FOURTEEN

Winnipeg Expects To Stop East's Pride

Here is the line which Winnipeg hope will hold the best thrusts of the eastern finalists and aid in taking the Grey Cup, emblematic of a Canadian championship to the west. Pegs have another string to the front line bow, however, Bert Oja, blond Minnesotan and line coach of the team, replaces Cerrit of the time. Oja just happened to be absent when Pegs lined up for this one.

Commercial Ice League Has Grand First Games

St. Albert, Welders Win Opening Puck Games By 4-1 and 3-1

St. Albert's band of speedy Frenchmen and the husky Saskatoon Welders were winning teams in opening games of the Commercial Ice League last night, defeating the local Hawks and the local Hawks and the local Hawks. The Hawks were defeated by the Welders by scores of 4-1 and 3-1, respectively.

Both games, with the exception of a little feed breaking out between the rival Welders and Miners, were exceptionally good, with many fine plays seen throughout the evening.

St. Albert, Welders Win Opening Puck Games

St. Albert's band of speedy Frenchmen and the husky Saskatoon Welders were winning teams in opening games of the Commercial Ice League last night, defeating the local Hawks and the local Hawks. The Hawks were defeated by the Welders by scores of 4-1 and 3-1, respectively.

School III-Lights ON SPORT

Two close games featured the girls' basketball at Garneau on Friday evening.

The first game was a close one, with the Hawks and the Hawks. The Hawks were defeated by the Hawks by scores of 4-1 and 3-1, respectively.

Both games, with the exception of a little feed breaking out between the rival Welders and Miners, were exceptionally good, with many fine plays seen throughout the evening.

Superiors Open Senior Hockey With Dominions

Edmonton Teams Clash In First Game at Arena Rink Tonight

Frying the lid off senior amateur competition for the winter, Superiors and Dominions will meet tonight at the Arena in the first inter-city league game of the season. This will be the first time these two teams met this year and much interest is shown in the encounter.

Both teams will be sporting revamped lineups, and the game is highly doubtful, as both squads have excellent material.

Superiors will have the advantage of having played a game already this year, against North Battleford, which has given Coach Ben Stuart a chance to pick

Practice in Washington, D.C. Left to Right, Frida Seely, Joan Ward.

Canadians Outboxed In Jousts

LONDON, Dec. 3.—Fighting in different parts of London, two Canadian boxers were defeated last night.

At Blackfriars, Tommy Farr, Welsh light-heavyweight champion, outboxed Eddie Wenstob of Voking, Alta, in a hard-fought 10-round bout. Farr showed himself steadier throughout the bout. Neither fighter showed much science but the heavy punching made it interesting. Farr dominated the first four rounds, keeping Wenstob away with straight lefts. Wenstob rallied in the fifth and landed a hard right to the jaw. The Canadian strove hard for a knockout but his punches were swinging wildly. Farr had a slight edge in the last two rounds, scoring better from long range.

At the Stadium Club, Nipper Ford, British, bantamweight champion of the southern area, outboxed Jack Spiller, Armstrong of Toronto in an eight-round bout.

Only 800,000 of the 4,000,000 films in the United States are electric.

E.A.C. Midgets To Practice Tonight

Glennie Mohr's Edmonton Athletic Club Midgets will practice tonight, Tuesday, at the 110th Street rink, starting at 8:00 o'clock sharp. All are asked to be on time.

A mail can repair its broken shell until it is as good as new.
